Stan,

Jeff Rakowski will meet you in the park around 12:00 PM to oversee the completion of the survey and speak with you and OSI, as we discussed on the phone. Jeff's cell number is 732-675-0159, he needs about 45 min – 1 hour to get up to the park from our office. If they look like they will finish up sooner than expected, please give him a call.

Thanks

Sharon

Subject: Re: Passaic Utility Survey

Sharon,

The plan is for OSI, our geophysical survey contractor, to arrive at the Kearny boat ramp by 7 or 7:30. The Kearny boat ramp is on the east side of the river near Passaic Ave and Bergen Ave. OSI plans to do a quick briefing of the day's work plan before going on the water.

OSI is bringing a small vessel that has a small draft to allow it to survey a larger area at high tide. FYI

high tide is expected on 5/29 at 12:59 PM. Because the survey boat is small, there is no room for CH2M-Hill, dmi or any visitor. Therefore anybody wishing to observe OSI's work can do so from the shore at RM 10.9.

If you will be sending somebody tomorrow, please give me their cell phone information so that I can contact them tonight if something changes.

Rob,

Stephanie mentioned the CPG was performing the utility survey tomorrow. EPA wants us to

perform oversight of the activity. What time will they be heading out and where are they meeting? Also will there be room on the boat? Do you have a feel for how long they will be out on the water?
